## SMART 6-MEAL FEEDER

### Cute design series by Catit®

The Catit® PIXI™ range consists of high-end cat supplies with a sleek yet whimsical design, inspired by our adorable office cat Pixi. The special blend of catitude and skill results in unique, user-friendly products.

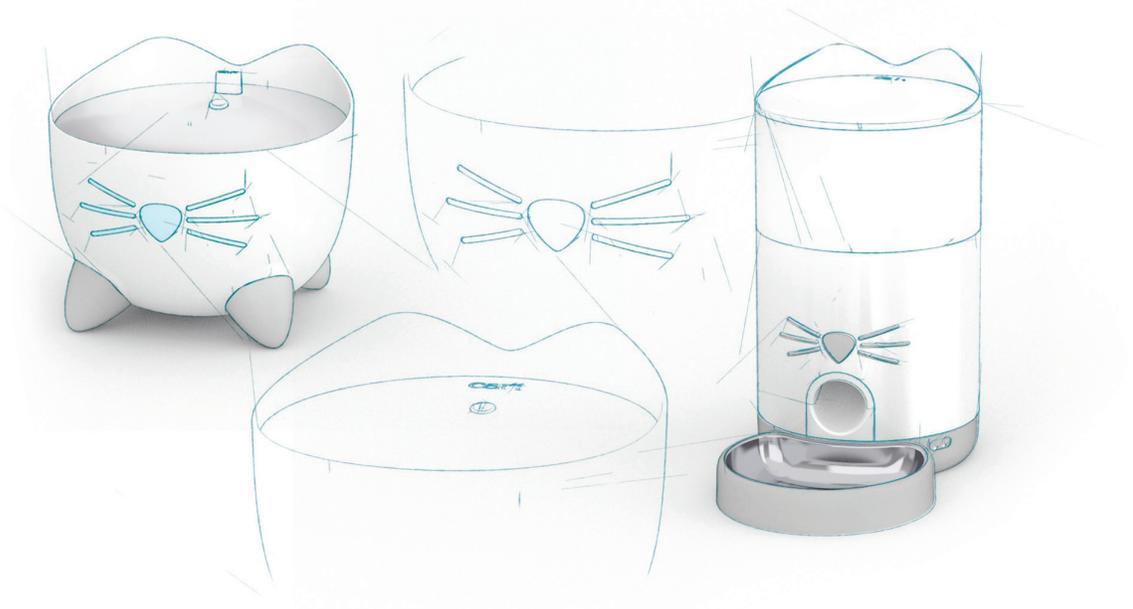

### Cross-category range

Comparable to our popular Catit® Senses™ series, the Catit® PIXI™ product line will continue to grow in the future, welcoming new items from different product categories, all sharing the same cat-like styling. As with Catit® Senses™, these products are great as stand-alone items but also pair up beautifully thanks to their design.

### Adorable styling

Our many conversations with cat groups have taught us that the 'cute level' in cat supplies is very important to cat parents. Catit® PIXI™ products all share cat-like traits, such as a nose with whiskers, ears, and/or a tail in some cases. These adorable elements appeal to any audience that is either young at heart or cares for their cat(s) as parents do for their children.

Because of its sleek design, Catit® PIXI™ is reminiscent of a high-end fashion line that will tickle anyone's fancy.

SMART 6-MEAL FEEDER

## Schedule your cat's daily meals using the Catit® PIXI™ App

Load the feeder tray with customized portions of your cat's favorite food or treats, and program when they're served using the free mobile app.

\*2.4GHz only

# Pixi™

## SMART 6-MEAL FEEDER

### Getting started

To open the feeder, pull back the snap between the ears. Press down on the nose-shaped display as you lift the cover.

### Top cover

The cat-proof design ensures there will be no food snitching when you're away from home.

### Feeding tray

The feeder offers 6 compartments for use with dry as well as wet cat food. Never fill the feeding tray beyond the front edge of the compartments to prevent malfunction.

### Ice packs

Freeze and insert the included ice packs to keep your cat's food and treats fresh for longer.

### LCD touch control panel

Can be used to schedule your cat's meals or to instantly serve the next meal. Requires a touch pattern to unlock. App and feeder sync in real-time.

### Feeder base

Ideally shaped to hold the ice packs and feeding tray in place.

### Backup battery compartment

Four C/LR14 batteries (not included) can be inserted to provide power to the feeder in case of a network power failure or blackout.

# Pixi™

## SMART 6-MEAL FEEDER

**Serve any combination of dry food, wet food, and treats, in the order you want**

The feeding tray rotates with each meal. Unfinished food is stored out of your cat's reach.

### Easy to clean

The feeding tray is removable for easy cleaning at the end of each feeding cycle. Simply rinse under running water or put the tray in the dishwasher.

# Pixi™

## SMART 6-MEAL FEEDER

### Portion control

Schedule when each individual meal is served using the free Catit® PIXI™ mobile app. There are 6 trays, but you determine the number of meals and amount of food that goes in. Pre-portioning your cat's meals allows you to monitor their food intake, and helps prevent binging or overeating.

### Touch control display

It's also possible to set and adjust your feeding schedule using the display on the feeder, or to skip ahead and serve the next meal.

The app and feeder settings sync in real-time.

SMART 6-MEAL FEEDER

### Ice packs help preserve food freshness

Freeze and insert the included ice packs underneath the feeding tray to keep your cat's food and treats fresh for longer.

### Easy daily switching

Additional ice packs sold separately, in sets of two

SMART 6-MEAL FEEDER

## Cat-proof features

The cat-proof design and control panel lock ensure there will be no snitching food, and that your cat is well-fed even when you're not at home.

## Cat-safe mechanism

The feeding tray stops rotating when met with resistance, ensuring your cat's paws are safe from harm or entrapment.

## SMART 6-MEAL FEEDER

### Free mobile app

With the Catit® PIXI™ App, you can easily set your cat's 24-hour feeding schedule, which will automatically repeat itself daily. Check and adjust your cat's meal times whenever you like, from wherever you are.

Using the app, you can access any of these feeder features remotely:

#### Schedule feeding plan

Schedule your cat's daily feeding plan of up to 6 meals

#### Feed instantly

Instantly serve the meal in the upcoming feeding tray compartment

#### Real-time status overview

Check when the scheduled meals will be served.

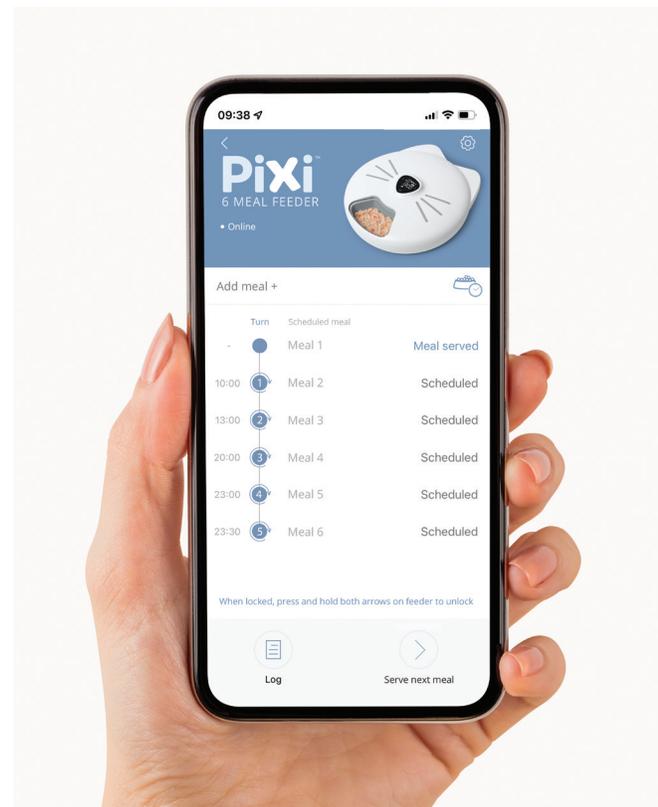

#### Enable audio (optional)

The feeder will play a sound to notify your cat that food has been served.

#### App sharing

Have multiple people (e.g. family, cat sitter) control and monitor the feeder by logging in to their account on the app.

# Pixi™

## SMART 6-MEAL FEEDER

### Notifications

If enabled in your settings, the Catit® PIXI™ Smart 6-meal Feeder will send handy push notifications to your smartphone in case of the following events:

#### Feeding successful

Receive confirmation when a meal has been served.

#### Brief obstruction

Informs you in case of an obstruction. After a 60-second pause, the feeder will automatically try to rotate again.

Catit® PIXI™

## SMART 6-MEAL FEEDER

### Built-in Wi-Fi (2.4 GHz only)

Connecting the Catit® PIXI™ Smart 6-meal Feeder to your home's Wi-Fi is child's play, no third party accessories needed.

### Free mobile app

Unlike many feeders on the market, the Catit® PIXI™ Smart 6-meal Feeder comes with a free app that does not require a paid subscription to use.
